Oregon Tualatin Valley Amateur Radio Club

"MY TWO CENTS" Pat Roberson

Aloha everyone. I don't know about you but this kind of weather makes me want to jump a plane to Hawaii. Oh well, tis the season...

Speaking of the season, thanks to Warren and Barb Winner for volunteering to head up the Holiday Dinner again this year. I think it is going to be a lot of fun. Don't forget to mark December 8th on your calendars for this event. Details and Registration are in this newsletter.

Due to Thanksgiving on November 24th the Board rescheduled the Board meeting to Monday November 21st.

If you're new to the club, or even if you've been a member for awhile, and would like to get involved, have we got a deal for you! The Sea-Pac committee is looking for a few good members to help out. Your help is needed, so if you would like to help, contact Vice-President, Herb Hirst K7HLH.

I hope you are all getting a chance to work the HF bands as they seem to really be hopping over the past few weeks. I worked Uruguay yesterday

DX-PEDITIONS Part 2: Resources for DX-pedition Planning

Joe Kelly N7BF has prepared a series of articles on DX-peditions. The series will run monthly.

If you have an interest in DXpeditions, either getting QSOs with DXpeditions or participating in one yourself, you have a multitude of resources to gather information. In this second article we will list some of those resources so you can start to gain a working knowledge of the topic.

CQ magazine has an article on DX in each issue under the title of DX. For example the September 2011 issue featured South Sudan and the July issue featured Mt. Athos and Monk Apollo.

QST magazine has an occasional feature article on a DXpedition. It has a monthly section entitled "HOW'S DX?" It lists current activities from around the world.

The DX Magazine is dedicated to providing accurate information to the DXer on DXpeditions around the world. Most of their articles are written by hams who want to tell about their specific DXpedition. These hams will often help us by
See DX-peditions, Page 4

CLUB MONTHLY MEETING

The November Club Meeting will be held on Thursday, November 17th at Community Building, Sunset Presbyterian Church, 14986 NW Cornell Rd, just off US 26 (Exit 65) in Beaverton. The Meeting begins at 7:00 pm.

"Summits On The Air" will be presented by JD Fort K7JDF. SOTA encourages portable operation in mountainous areas.

OTVARC is affiliated with ARRL: The National Association for Amateur Radio and is a Special Service Club. Check out the map at: tinyurl.com/otvarc-site

Guests are always welcome.

Questions? otvarc@gmail.com

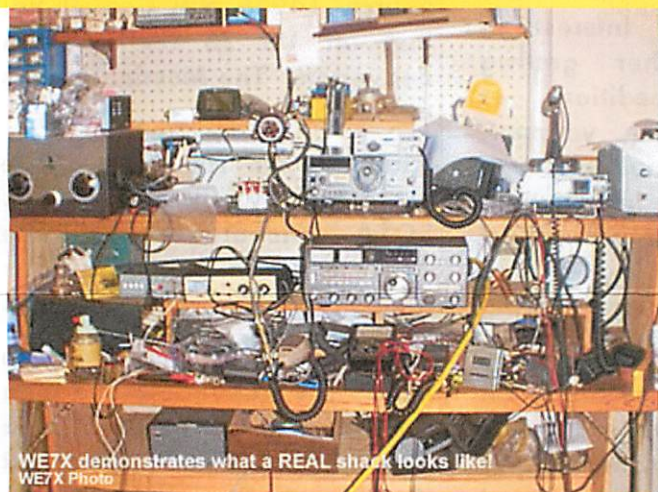

CQ WW SSB CONTEST

As we go to print, we've learned that our affiliate Tualatin Valley Contesters put W7TVC on-the-air for the CQ Worldwide Contest October 28-30. With increasing propagation, the group increased their 2010 preliminary score by more than twice! They report a preliminary score of 820,680. More in December.

ELECTION COMMITTEE

Elections for Board positions will be held in March and April, 2012. Newly elected Officers and Trustees will be installed at our Annual Meeting, May 17, 2012. The Board has appointed Warren Winner, Treasurer, to serve as our Elections Committee Chair. At least two members of the club who are not on the Board will be joining him. If you are considering a run for club office, make your interest known to Warren and the Elections Committee. We will elect all four officers and three trustees to the Board.

FEEL GOOD HAM SHACK

WE7X demonstrates what a REAL shack looks like!
WE7X Photo

Does this make you feel better about how your "Shack" looks. If you get pressure from other residents at your QTH to clean up your area...offer this as an example of what COULD happen.

EXTRA CLASS UPGRADE COURSE?!

(yes Ron, I really did), and look forward to more contacts.

Is there any interest in a weekly club net on the 146.96 repeater? We would need a net manager and net control operators to make it work. If you're interested please let the Board of Directors know.

73 and Mahalo,
Pat Roberson KA7PAT, OTVARC PRESIDENT

CLUB MEMBER RENEWAL

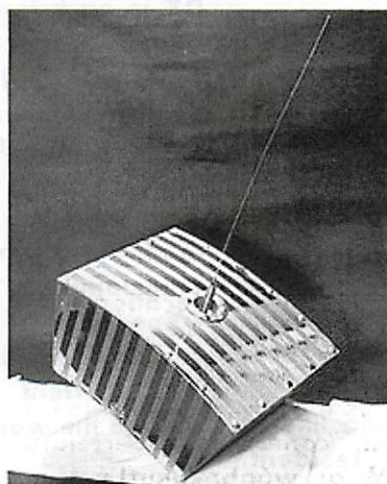

Membership renewal for 2012 will open at the November 17 Club Meeting. Renewal is \$20.00 for Regular Members, and \$5.00 for additional Family Members at the same address. Dues are in arrears after January 31, 2012. No Annual Dues are due from Life Members.

As always, complete an updated Membership Data Page and make your checks to OTVARCCS.

We encourage donations to the club for the Scholarship and Repeater Funds. Donations may be made to the General Fund as well.

OSCAR I NOW 70 YEARS OLD

A group of California amateur radio operators formed Project OSCAR in 1961. Lance Ginner K6GSJ; Chuck Smallhouse W6MGZ; Ed Beck K6ZX; Al Diem; Chuck Townes K6LFH (SK), and Nick Marshall W6OLO (SK) proposed replacing ballast on the Agena upper stage launching of the Discover 36 Satellite with the 9.9 pound OSCAR I. The United States Air Force would launch Discover from Vandenberg Air Force Base on December 12, 1961 using a Thor DM-21 Agena-B rocket.

The satellite was a rectangle with a single monopole antenna and was battery powered. The 140 mWatt transmitter onboard discharged its batteries in three weeks. Five hundred-seventy amateurs in twenty-eight countries reported receiving signals on 144.983

MHz from OSCAR I. It was first heard by station KCRVSB at the South Pole and one hour later by an FAA Systems Engineer with the call KL7EBM (Now K6???) on Fire Island, Alaska, nearly half-way around the world.

Reservation Form In This Issue

Since its start the OTVARC field activities have centered around Field Day, scouting, and RVing. In discussing the early days of the club Bob Orr stated that most members were busy with work and families and DXpeditions were really not considered. Bob recalled Field Day at Mt. Hood, acreage own by the Berg's, Vernonia, and other scenic spots. The one exception to that was DXpedition to Belize that included OTVARC's Al Berg and Sue Benton to be reported on in the next installment.

[Next Month: DXpedition to Belize that included OTVARC's Al Berg and Sue Benton]

DX-peditions, from Page 1

answering specific questions by letter or e-mail.

DXpedition DVDs are exciting to watch and indirectly provide information on how to do a trip. They usually chronicle their procedures and difficulties. James Brooks has 11 DVDs out and you can see what they cover on his website: www.dxvideos.com. Note that OTVARC members have most of these videos so if you would like to see a couple ask our presentation coordinator, Herb Hirst, to show some at one of our monthly meetings.

There are conferences, meetings, and dedicated groups that are great resources of information. They include our own *SeaPac* event that features DXpedition presentations; the Northwest DX Conference that rotates between Spokane, Seattle and Portland. Portland will host in 2012. The International DX Convention is held in Visalia, CA each April (next is April 20-22, 2012).

Great groups to join or support include the Northern California DX Foundation (www.ncdxf.org) and our Willamette Valley DX Club (www.wvdx.org).

The ARRL sends out an e-mail each Thursday (you need to sign up for it, but it is part of your membership) that lists DX and DXpedition activity, along with what is "On the Radio This Week".

If you "Google" DXpeditions you will get numerous personal videos, including some on YouTube. These range in length from a few minutes to a half hour. Most are made by hams like you and me who want to share their adventures.

Buddipole supports DXpeditions for small groups of their customers. OTVARC's Joe Kelly is signed up to go to St. Lucia (J6) December 3-13, 2011. He will be one of eight hams on the trip. The trip leader Guy Hamblen (N7UN) met with some of OTVARC's members recently and it seems like additional OTVARC members will participate in future Buddipole DXpeditions.
